CoreMMIS Implementation Date

February 6, 2017

On January 30, 2017, Indiana's Family and Social Services Administration ("FSSA") published Bulletin BT201710 announcing that the Indiana Health Coverage Programs ("IHCP") have set **Monday, February 13, 2017**, as the new implementation date for replacing the current information system, IndianaAIM, with CoreMMIS. CoreMMIS stands for Core Medicaid Management Information System, the state's new Medicaid interface for providers. With Core MMIS' implementation, a new interface called the Provider Healthcare Portal ("Portal") will replace Web interChange.

All providers should register a single *Provider* account as well as all needed *Delegate* accounts on the Portal for every service location enrolled with IHCP. All Portal accounts should be established before CoreMMIS' implementation to avoid interruptions in business transactions. Providers can register for the Portal [here](#). The first Remittance Advice from CoreMMIS will be released on Monday, February 20, 2017, with a paid date of Wednesday, February 22, 2017.

For more information, FSSA's bulletin with further details regarding CoreMMIS' implementation can be found [here](#), and FSSA's bulletin with further details regarding registering for the new Portal can be found [here](#).

If you have questions or require more information about CoreMMIS' implementation, please contact your regular Krieg DeVault health care attorney.
